

## Health In Action Community Pharmacy Pharmacy Trainee Programme Summer 2025

### Introduction

Health In Action was established in 2011 and is a registered non-governmental organization in Hong Kong. Our vision is to eliminate health inequity in societies and we firmly believe that health is a fundamental human right for all, irrespective of race, religion, gender or political affiliation. Health In Action Community Pharmacy was established in 2019. Our community pharmacy services include:

1. Medication Dispensing and Consultation Service
2. Minor Ailment Management Service
3. Medication Management Service - a free-of-charge, patient-centred service offered to patients and/or their caregivers by a pharmacist to assess the medication appropriateness, effectiveness, safety and adherence, and to provide advice on their medications, with aim to improve their health outcomes
4. Public Education via workshops and talks

For details, please visit:
